SUPER BIG RED® Is Economical

SUPER BIG RED®'s high concentration allows a reduction in the amount of cleaner needed for a job . . . up to 50% less SUPER BIG RED®, as compared to ordinary cleaners. SUPER BIG RED® is chemically engineered to remove stubborn soil from practically any type surface, making it the most economical cleaner you can use. Economy is further assured because the cleaning inventory can be kept at a minimum. SUPER BIG RED® stays fresh and does not thicken. Use it down to and including the very last concentrated drop!

SUPER BIG RED® Is Powerful

Texas Refinery Corp.'s SUPER BIG RED® is a highly alkaline cleaner with a great deal of cleaning bite. In addition, it contains a special water soluble solvent to cut grease and oil related stains. It is the ideal product for the really tough cleaning jobs. SUPER BIG RED® is so powerful it can be diluted with up to 100 parts water!

SUPER BIG RED® Is Easy To Use

There is no mess or fuss when using Texas Refinery Corp.'s SUPER BIG RED®. On most jobs, no mixing equipment is needed . . . simply add SUPER BIG RED® to hot or cold water and the cleaning job is half done! SUPER BIG RED® plus water is easy

SUPER BIG RED® is chemically engineered to remove stubborn soils from practically any type surface.

to apply with mop, wiping cloth, brush, or spray. To remove heavy deposits of oil and grease from concrete floors, or for cleaning and degreasing industrial equipment, just dilute SUPER BIG RED® with a solvent, such as kerosene.

SUPER BIG RED® cleans quickly, with less effort required. It freely rinses from surfaces, leaving essentially no sticky film or residue. Mops and buckets are easy to clean after using SUPER BIG RED® . . . just rinse in cold water and they are ready to store.

SUPER BIG RED® Is Safe

SUPER BIG RED® is a combination of highly effective emulsifiers, solvents, and wetting agents in a safe, concentrated form. Several important safeguards are a benefit when using SUPER BIG RED®. In addition to being nonflammable and emitting no toxic fumes, SUPER BIG RED®'s surfactants are biodegradable. Many local governments require the cleaners used by industries to be biodegradable - - this feature helps eliminate foaming problems in sewage treatment plants. Texas Refinery Corp.'s SUPER BIG RED® meets this need!

SUPER BIG RED® Can Be Used With Food

SUPER BIG RED can be used in poultry, meat, rabbit and egg products inspection program as a general cleaner. Before using SUPER BIG RED®, all food products and packaging materials must be removed from the room or carefully protected. After using SUPER BIG RED®, surfaces must be thoroughly rinsed with potable water.

SUPER BIG RED® Is Versatile

SUPER BIG RED® is formulated to remove stubborn soil from most surfaces . . . from industrial equipment to floors to whitewall tires. It can be used on metals, rubber, and most plastics; ideal for more efficient removal of grease, oil, dirt, cutting oils, grimes, syrups, and adhesives. It's especially effective in steam

cleaning operations. Continuous use of SUPER BIG RED® helps prevent scaly substances from forming on steam cleaner coils. It joins with steam power to cut dirt and grime from virtually any surface allowing cleaner servicing of equipment. This provides longer equipment life, adding up to substantial savings and considerable profits!

SPECIFICATIONS

SUPER BIG RED®

Product Code: #1730

USES	METHODS	ADVANTAGES
HAND WIPING MACHINERY*	Dilute 3 ozs. of SUPER BIG RED® in a gallon of hot or cold water. Hand wipe or spray on. Wipe off.	Superior cleaning power for pennies per gallon. Solution won't sour for a long period of time.
NEWSPAPER BUILDING MAINTENANCE*	Mix 2 oz. of SUPER BIG RED® to a gallon of clear water.	Readily emulsifies "ink mist." Effectively cleans walls and floors. Fast, economical.
STEAM CLEANING	Mix 1 part SUPER BIG RED® to 25 or more parts cold water. Concentration depends on stubbornness of soiled area. Add more SUPER BIG RED® as needed.	Safe on most types of metal. Provides speedy wetting and penetrating action.
MAINTENANCE OF FLOORS, WALLS, BLACKBOARDS AND PAINTED SURFACES*	Dilute 1 oz. SUPER BIG RED® to a gallon of clear, clean water (hot or cold). For stripping most floor finishes, mix at a ratio of 1 part SUPER BIG RED® to 5 parts water. Let solution set 10 minutes, but do not let it dry. Agitate with stiff bristle brush or broom. Mop floor, then rinse with clean water and allow floor to dry.	Superior cleaning at a minimal cost.
CAR WASHING*	Pre-rinse by hosing down with plain water. Dilute 1 oz. of SUPER BIG RED® to a gallon of clear water. Use brush or swab. Hose rinse with clear water.	No harm to expensive car finish. Leaves bright, well-kept appearance. Virtually free rinsing.
CONCRETE FLOORS WITH HEAVY DEPOSITS OF OIL AND GREASES (Driveways, runways, loading docks)	Mix 1 part SUPER BIG RED® to 5 parts solvent.** (Note: Mix 1 gal. of solvent and 1 gal. of SUPER BIG RED® thoroughly. Then add remaining 4 gal. of solvent.) Let soak. Agitate when necessary. Rinse with high pressure hose. One gallon of solution covers approximately 150 sq. ft.	Strong wetting, penetrating and emulsifying action. Excellent rinsibility and water hardness control. (When drain facilities are not available, remove excess solution with rubber-bladed squeegee. Area may then be mopped with clear rinse water.)
HEAVY-DUTY EQUIPMENT WASHING	Pre-rinse equipment to be cleaned. Add 1 to 3 ozs. of SUPER BIG RED® to each gallon of water, depending upon soiled condition of equipment. Use cold or warm water. Apply mixture of SUPER BIG RED® and water to equipment. Agitate extremely soiled areas with a brush or swab. Let solution soak for 5 to 10 minutes. Then rinse equipment clean.	No harm to most painted surfaces. Dirt rinses away easily. An economical, effective cleaner.
CLEANING AND DEGREASING INDUSTRIAL EQUIPMENT (Pumps, engines, compressors) TRUCK AND CAR MOTORS	Dilute 1 part SUPER BIG RED® to 5 parts solvent**. (Note: mix 1 gal. of solvent and 1 gal. of SUPER BIG RED® thoroughly. Then add remaining 4 gals. of solvent.) Spray or brush solution over entire surface. Let soak for 5 to 15 minutes. Rinse surface with water hose and use air hose, if one is available, to blow off excess water. This solution is COMBUSTIBLE.	Light Solvent odor. Safe on most metal parts. Unequalled wetting and penetrating action. Controls lime and scale deposits. Let very hot surfaces (exhaust system) cool down before application - works well on warm motor surfaces. While cleaning is in process, do not operate equipment. Equipment is ready to use immediately after cleaning.

pH (100%) 12.9

**May be irritating to hands. Rubber gloves should be worn.

**Solvent, such as kerosene, Stoddard solvent, or naphtha.
