

# TUFF STUFF

## ◆ Multi-purpose Cleaning Compound

Tuff Stuff is a peach colored, multipurpose cleaning compound, formulated to remove stubborn grit and grime from trucks, equipment, off-road vehicles, floors and rigs. It is the product of choice for many steam cleaning and pressure washing jobs that require a cleaner with that extra "bite". Tuff Stuff not only emulsifies and dissolves grease and removes dirt from most surfaces, but the chemistry of the ingredients in the cleaner help to prevent scale buildup in the coils, nozzles and lines of the cleaning equipment.

## ◆ Synergistic Blend of Degreasers and Surfactants

Tuff Stuff contains a unique blend of ingredients that work well with each other to ensure that the grit and grime are washed away. The degreaser is a water-soluble solvent that is designed for quick and easy penetration and dispersion of grease and grime. This degreaser works well with the surfactant blend that is formulated to be an emulsifier, foam builder, destabilizer and penetrant. As if these two agents were not enough to penetrate the grime, stout alkaline builders are present to provide the extra "bite" to the mixture. Tuff Stuff at its most concentrated level has a pH of 12.5.

## ◆ Biodegradable and Economical

Tuff Stuff is engineered to be 100% soluble in water, leaving no fillers floating in the solution and allowing the product to harmlessly decompose over time. Since Tuff Stuff is formulated to dissolve completely, it is a very economical cleaning product, useful in many applications. For pressure washing or steam cleaning, Tuff Stuff can be diluted anywhere from 1:10 to 1:60 depending on the degree of soil. In applications where Tuff Stuff will be applied by brush or garden sprayer, a dilution ratio of 1:5 is recommended.

**Made In The  
U.S.A.  
Since 1922**

**CAUTION: EYE IRRITANT  
FOR COMMERCIAL OR INDUSTRIAL USE ONLY**

**PRECAUTIONS:**

Avoid breathing vapor or mist. Avoid prolonged or repeated contact with concentrate. Keep container closed when not in use. Wash thoroughly after handling.

**EYE CONTACT:** Flush with cool water for at least 15 minutes. SEEK IMMEDIATE MEDICAL ATTENTION.

**SKIN CONTACT:** Wash with mild soap and water. If irritation persists, SEEK MEDICAL ATTENTION.

**INHALED:** Remove to fresh air.

**IF SWALLOWED:** DO NOT INDUCE VOMITING. Give one or two glasses of water or milk. CALL A PHYSICIAN IMMEDIATELY.

Consult SDS for more detailed information on the safe handling of this product.

**DIRECTIONS FOR USE:**

**1) PRESSURE WASHING OR STEAM CLEANING:**

Dilute Tuff Stuff at the rate of 1:10 to 1:60 with water. Actual dilution rate depends on the severity of the soil.

**2) GARDEN SPRAYER OR BRUSH:**

Dilute Tuff Stuff at a rate of 1:5 with water.

**3) COLD DEGREASER:**

Use Tuff Stuff at full strength. Some agitation may be required.

**4) PAINTS:**

Tuff Stuff contains highly alkaline materials that may dull gloss paints or highly polished surfaces. Dilutions of 1:25 and greater have been found to have no effect on painted surfaces.
